## OUTSOURCED ACCOUNTING PIONEERS.

Fourteen years ago TAD was one of the first to develop personalized, web based accounting services and make them available to companies both large and small. Our reliable and timely services provide the accounting backbone that helps clients operate efficiently on a daily basis, and strategically as they chart their future. By taking advantage of our services, companies better position themselves to take advantage of opportunities and weather challenges. *Our costs are 20-50% less than an in-house accounting department and we use US based accountants.* TAD is proud to be recognized throughout the accounting community for experience, quality and integrity. Reduce your costs and improve your accounting services. Call TAD today.
